

Dryopteris filix-mas 'Linearis Polydactyla'

(Slender Crested Male Fern 'Linearis Polydactyla')

This plant prefers moist humusy soil that have a lot of organic matter.

Compared to the Dryopteris filix-mas the

'Linearis Polydactyla' has more of an airy feel since the leaflets are thinner more spaced and with the greater height it archs less. The tips of the leaflets are multi forked and almost finger like
