

Agave americana 'Green'

(American Agave, American Century Plant)

The American century plant is a succulent that has large leaves that can attain 2 meters long. The leaves are green or blue green, and they have spiky margins. During summer, they produce yellow fragrant flowers that attract birds and bats. For a plant to bloom it may take very long, up to 35 years sometimes.

American agave is a heat and drought tolerant plant. It requires full sun, and well drained, poor soils to grow.

Flower Image

Botanical Description

Foliage

Leaf Venation: Nearly Invisible

Leaf Persistence: Evergreen

Leaf Type: Simple

Leaf Blade: Over 80 cm

Leaf Shape: Awl

Leaf Margins: Spiny

Leaf Textures: Fleshy/Juicy

Leaf Scent: No Fragrance

Color(growing season): Green

Color(changing season): Green

Flower

Flower Showiness: True

Flower Size Range: 7 - 10

Flower Scent: Pleasant

Flower Color: Green, Yellow

Seasons: Summer

Fruit

Fruit Type: Capsule

Fruit Showiness: False

Fruit Size Range: 3 - 7

Fruit Colors: Brown

Seasons: Summer

Horticulture Management

Tolerance

Frost Tolerant: Yes

Heat Tolerant: Yes

Drought Tolerant: Yes

Requirements

Soil Requirements: Loam, Sand

Soil Ph Requirements: Acidic, Neutral

Water Requirements: Low

Light Requirements: Full

Management

Invasive Potential: Yes

Susceptibility to Pests and Diseases: No

Pruning Requirement: No pruning at all

Edible Parts:

Pests: Scales

Plant Propagations: Seed, Cutting
