Cassia didymobotrya

(Popcorn Cassia, Peanut Butter Cassia)

It is bushy evergreen shrub. The plant has a strong scent which has been variously described as being reminiscent of mice, wet dog, peanut butter, and burnt popcorn. The young shots and leaves are finely silky. Leaves are pinnate, flowers are large cup shaped golden yellow. It grows well on sandy soil full sun and has some drought tolerance therefore could be used in xeriscaping. Can be also used as a barrier, screen or foundational plant.
