

Canna indica "Purpurea"
(Canna Lily, Indian shot 'Purpurea')

Canna is a perennial evergreen, colorful herbaceous plant. It grows in tropical, to sub-tropical areas. It grows flowers all year long, that can be yellow, red, orange in color. This Canna has purple to burgundy leaves.

Canna grows in moist, well drained soil, in sunny areas. It needs average watering and do well in ample watering too. But since this plant is highly adaptable, it also can tolerate drought.
