

Impatiens walleriana

(Busy Lizzy, Impatiens)

Most of the impatiens are evergreen with tropical and subtropical origin with thousands of cultivated varieties being available in the market nowadays. Most of the times used as an annual plant for seasonal plantation.

The leaves and stems of impatiens are often fleshy and succulent. The flower can be single or double. Flowers come in a wide range of colors to include red, yellow, orange, pink, burgundy, salmon, white.

Impatiens prefer partial sun to shade and fertile, evenly moist soil with adequate drainage. They are ideal for shaded borders, containers and hanging baskets.
